EDGEWISE SERIES

CASE & COMPOSITION:

All case housing materials selected for their excellent electrical char-
acteristics and strengths. The .5-E has a thermoplastic front and steel
back. All models have thermoplastic windows except Models 320-ED
& 320-EG which have sealed glass windows. Model 320-EG* is
constructed to withstand rough environmental and industrial applica-
tions. Standard meter; horizontal mounting, barrel down, zero left
(except zero center models)

OPTIONS AVAILABLE: Bezels available for Models 220-E,
320-E, 420-E. Models 320-E, 320-EG and 420-E can be mounted from
front or rear of panel. Also available for vertical mounting, barrel right,
zero bottom.
* Includes steel mounting brackets.

RUGGEDIZED SERIES
