Press Release May 15, 2007

Jewell Hires Dan Connell as New Manufacturing and Quality Manager

Jewell Instruments is pleased to announce that Dan Connell has joined the Jewell team as the new Manufacturing and Quality Manager. Dan will be responsible for all aspects of Jewell production and quality teams for all our major product lines.

Dan comes to Jewell with over 25 years experience in the management of manufacturing production and quality assurance. In his position as production manager of Memotec/Infinet Inc., he successfully implemented the lean manufacturing philosophy and reduced test time by 25% on all major product lines. Dan then spent almost 20 years as Head of Manufacturing at Mettler-Toledo Thornton Inc. where he continued to implement the philosophy of lean manufacturing greatly improving their process flows.

Dan brings hands-on, real world knowledge of manufacturing processes and uses this base to continuously increase production, reduce scrap and improve product quality. His team-based approach will support Jewell's philosophies and goals and will help to ensure our future success.
