

Product Announcement For Immediate Release

Compact LSM Series Accelerometers

Designed to fit in limited space, the compact LSM Series Accelerometers are approximately the size of a 1" cube. Their wide input range and bandwidth features meet the demanding needs of a variety of aerospace applications. The versatile LSM Series is ideal for use in satellite motion sensing, radar leveling, fire control, altitude heading and reference systems, train braking and banking, missile orientation and autopilot applications. They have an input range from +/- 0.5g to +/-20.0g and have bandwidths (-3db) from 70 to 160 Hz. Visit the Jewell Web site at www.jewellinstruments.com
